

K-LOVE as a nationally broadcast station allows us in Westminster to hear Christian music un-interrupted by commercials. No other local station plays the same format. K-LOVE works in partnership with the local translator station to serve the needs of the community. In my job, I travel across the country and am able to enjoy K-LOVE in many of the towns & cities I visit. I like being able to listen to a familiar voice when outside my home area. Please do not jeopardize their ability to remain on the air throughout the nation.
